Learning Journey

Welcome back to the new school year. The children have settled in well and have been working hard. In year 1, you will receive a learning journey twice within a half term. This will provide you with activities to support your child at home and share important information and reminders. Below are some activities to support your child with their prior learning and assist them with their new learning.

We have noticed some children have been bringing in toys to school. Can we please remind you that children should not be bringing in toys as it can be upsetting when the toys get lost or broken.

We have started our learning about bears. This week we have been writing about what Paddington looks like and what he might have packed in his suitcase. Next week we will be following instructions to make a jam sandwich in class, and we will then be writing instructions of how we made the sandwich. In maths we have been focusing on recognising and writing numbers. We have been improving our number knowledge and looking at 1 more and 1 less than a given number.

We will then be moving on to learning the story of Goldilocks and the Three Bears. We will be creating a character description to describe what Goldilocks looks like. We will then use our story maps to write sentences using capital letters and full stops. While learning about Goldilocks, we will also be making porridge and writing instructions. In the upcoming weeks in maths, we will be learning about addition, subtraction and time. The children will be demonstrating some of their previous learning within these topics.

Read your book at least 3 times a week.	Practise counting forwards to 30.	Draw a picture of Paddington Bear.
Write a sentence about Goldilocks. Use capital letters and full stops.	Practise writing these common exception words to, do, of, is, he & be	Go outside and find 23 leaves.
Discuss what is happening to the leaves in autumn. What is the weather like?	Re-tell the story of Goldilocks and the Three Bears,	Form numbers 1- 20 correctly
Use your shoes (or any household object) to practise addition sums. E.g. $6 + 4 =$	Write a list of words which have some of these sound in. j, w or v	Draw a picture from your favourite story book.
