

26 April 2019

Dear Parents/Guardians,

For the whole of the week beginning 17 June 2019, Year 5 will be running an 'Engineering Week'. The week will be based around the book 'Rosie Revere, Engineer' by Andrea Beaty, a story of a little girl and her passion for inventing and will be linked to 'International Women in Engineering Day 2019' which takes place on Sunday 23 June. Over the course of the week, the children will be learning about different jobs in engineering and completing a variety of engineering tasks for themselves. The week will culminate in their DT project for this term of designing and creating Land Yachts.

We would love your help to make this week as interactive and engaging for the children as possible. In the afternoons, we would really like to have guest speakers in to talk to the children about their job in engineering.

If you work in engineering and have anything you would like to share with the children about your role, we would love to hear from you. It could be a Q and A session with the children where they can ask you about your job or you could have an interesting engineering activity that links to your role that the children could carry out. Both options were successful last year and were the children's highlight of the week. Whatever it is that you can offer, we would be incredibly grateful for your support.

If you think you would be able to assist at any point with our engineering week please could you complete the slip below and return it to your child's teacher before 10 May 2019.

As always, thank you for your continued support,

Miss Hotston and Mr Atkins

I _____ parent/guardian of _____

can help with Year 5 Engineering week on the week beginning 17 June 2019.

Your job role:

What help can you offer?

Which afternoon/s are you available? Mon 17, Tue 18, Wed 19 or Thur 20 June 2019

Please provide any additional information on the reverse of this slip.
