

Year R Learning Journey

Week beginning: 14th January 2019

This week our topic is Under the Sea

This week we will be learning about the different creatures that live in the ocean. In Maths we will be learning about capacity such as measuring water and saying whether a container is 'full, empty or half full.' In Literacy we will be describing and learning facts about sea creatures. We will be making an under the sea picture in art by cutting, collaging and printing.

Don't Forget

Our Trip to the Blue Reef Aquarium is on Wednesday 16th January. Please make sure that you arrive to school on time so that we can get ready for our trip. The coach will be leaving at 9:15.

We would also like to thank parents who volunteered coming with us. We have spoken to the parents who will be helping on the day. We would love to take you all but as you will understand there are only limited spaces.

We also ask that you put your child's lunch in a named **carrier bag** so that it can be thrown away afterwards.

Home Challenge

This week's home challenge is to find out facts about a sea creature of your choice and present your information to the class however you would like to. You could create a fact file, draw a picture or create a model.

Thank you for your support.

How you can help at home

- ✓ Keep practising with your child daily their sounds and key words. Can they write these?
- ✓ Can your child add one more to 20? Can they add one more beyond 20?
- ✓ Learn more about sea creatures.
