

Year R Learning Journey

Week beginning: 21st January 2019

This week our topic is continuing under the sea

We are going to look at our photos from our trip and put them in order. We are going to think about our favourite part of the trip and our favourite sea creature and use our sounds to describe them.

In maths we are going to be taking away focusing on making our numbers smaller.

In phonics we will be learning our new digraph sounds 'ng' and 'ai'.

For your information

Please remember that you can change your child's reading book in the morning.

Please make sure you choose a book from the right colour box based on the colour label on the book.

Sounds of the week:

ng ai

Words of the week:

like so

Home Challenge

This week's home challenge is to think about your favourite sea creature from our school trip. Can you find out some facts about this creature?
Present these facts in any way you like. This could be a painting, poster or model.

Thank you for your support.

How you can help at home

- ✓ Keep practising with your child daily their sounds and key words. Can they write these?
- ✓ Practise taking away objects with your child such as 'I have 10 sweets, if I eat 2, how many will I have left?'
- ✓ Practise getting dressed independently at home, how quickly can your child get dressed? Can they beat their time?
