## Overview of Parent Workshops 2025–26

Dear Parents and Carers,

We are delighted to share the schedule for this year's parent workshops and open afternoons. These events are designed to strengthen the partnership between home and school, giving you valuable insights into your child's learning journey and opportunities to engage with their classroom experiences.

Each year group has a tailored programme of workshops across the Autumn, Spring, and Summer terms. These include:

- **Meet the Teacher sessions** at the start of the year to build strong communication and understanding.
- **Curriculum-focused workshops** such as phonics, handwriting, coding, and maths to support learning at home.
- **Creative and interactive activities** like clay modelling, weaving, puppet making, and pizza making to celebrate your child's creativity.
- **Special events** including concerts, museum exhibitions, and end-of-year celebrations to showcase pupils' achievements.

We encourage all parents to attend these sessions where possible. They are a wonderful way to connect with your child's education and with our school community.

Thank you for your continued support.

Tony Head
