

7 November 2025

Headteacher - Tony Head

Dear Year 2 Parents,

We would like to invite you to a **Year 2 Maths Workshop on Addition and Subtraction** on **Tuesday 18 November 2025 at 9.00am**.

This workshop is a wonderful opportunity for you to see how addition and subtraction is taught in Year 2, as well as to observe how your child applies these strategies during their maths lessons.

- **Part 1:** The session will begin in the **Meeting Room**, led by one of the Year 2 teachers, who will explain how addition and subtraction is taught in Year 2. You will also have the chance to ask any questions about the methods and strategies we use.
- **Part 2:** Following this, you will be invited into your child's classroom to watch the children working independently on addition and subtraction activities in their maths books.

After you drop your child off in the morning, please stay on for the workshop by making your way to the infant hall. A member of the Year 2 team will meet you there and guide you to the meeting room.

We hope this session will give you a clear understanding of how you can support your child's maths learning at home and allow you to see their fantastic work in action.

We look forward to seeing as many of you as possible on the day.

Yours sincerely,

Miss Byrne and Mrs Peacock
Year 2 Team
