

3 November 2023

Dear Parents

A reminder that pupils in year 2 to year 6 have access to the Doodle Maths and Doodle Tables on-line learning platform to support them with mathematics learning at home.

Doodle builds confidence and ability in maths by creating every child a personalised work programme tailored to their strengths and weaknesses.

To get the most out of Doodle Maths it is suggested that pupils use it in a 'little and often' way. Playing for 10 minutes a day will help your child make progress.

As your child plays, the software will adapt based on how they answer questions, increasing or decreasing the level of challenge.

Your child's school login details should be used to sign into the platform.

If you find your child is having difficulty when using the platform, then you can go to any Doodle Maths page and click on the green chat icon. You will be able to chat with the dedicated help team.

There is a presentation for parents on using Doodle Maths on the school website with more information.
