

Nursery Learning Journey

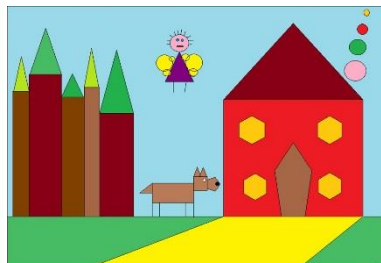

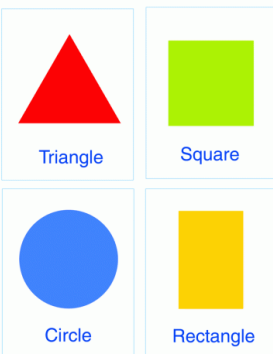

Week beginning: 16th November 2020

This week our topic is Shape

This week we will be learning about 2D shapes and the story 'Mouse shapes'. During our adult led 'Rainbow Time' children will be learning the names of 2D shapes, what they look like and even hunting for them in the environment. They will be doing many activities based around 2D shapes such as creating shape pictures, fishing for shapes in the water tray, sorting shapes and using iPads to make a collection of shapes that we can find in our environment.

For your information

For those children who attend Nursery on Mondays they will be able to wear clothes that make them happy to support the charity 'Children in Need,' on Monday 16th. A £1 donation would be appreciated.

If you want to make the Makaton signs for the shapes then simply make the shape with your fingers in front of you. You can watch this video of Matt sharing some of the Makaton signs <https://www.youtube.com/watch?v=4oSu4qcgKK0e>aches shapes

Home Challenge

This week's home challenge is to go on a 2D shape hunt around the home. Find things that are shaped as circles, triangles, squares and rectangles. Your child may like to draw or take photos of the things they find. We would love to see the drawing or photos.
Thank you for your support.

How you can help at home

- ✓ Learn about 2D shapes using this shapes song the children have learnt at school: <https://www.youtube.com/watch?v=w6eTDfkvPmo>
- ✓ Talk to your child about things that are shaped as circles, triangles, squares and rectangles.
