## Welcome Back!

Dear Parents,

I just wanted to write to say how truly fantastic it is to have all the children back into school with us. I know I saw a few nervous faces on Monday morning, but the children have shown their resilience, eagerness, and happiness at being back over this week. Their ability to adjust to change so well is remarkable and is credit to everyone in our community.

It is not only the children that are happier, the staff are equally delighted to have everyone back. The joy of being able to teach 30 children all together in one room is almost palpable. I sincerely hope that it is the last we will see of 'National Lockdowns' for a very long time and that we can continue forward on the road of recovery, and that it will not be long before our community can open wider.

I know we are not there yet and that we need to continue to work together to help reduce the chances of community infection rates rising. Can I please ask that parents who are dropping their children off to continue to wear masks whenever possible, and not to linger for any longer than is necessary outside of the school.

Yours sincerely

Tony Head

Principal
